

JustHealth Patient Questionnaire

The app we have decided to build is, a home care mobile health management system for people with chronic health conditions and their carers/doctors.

Patients will have:

- Reminders to take medication
- Record medication taken
- Alert carer to any abnormalities
- Check and record health conditions regularly, e.g. temperature, heart rate
- Send emergency alarms to carers/doctors
- Record hospital appointments and provide directions
- Live chat to carer
- Database of drugs and interfacing with the NHS Direct website

Carers

- Enter medication details for their patients
- For patients on repeated medication, remind their carers before the medication run out
- Checking patients
- Track patients' movement when they are out
- Response to emergency alarms

Please answer the following questions below:

1. Name:
