QA Content Checklist

08/10/2014

Ben McGregor

CO600: JustHealth
Supervisor: Yang He

QA content checklist should be completed for each document throughout the project; it should then be signed off by both the QA manager and the document author.

Details

Title:	JustHealth Technical Documentation		**Date:**	05/01/2015
Author:	Charlotte Hutchinson, Rich Logan, Ben McGregor, Stephen Tate			
Type:	(X) Documentation	(X) Code	**Iteration:**	
Description:	***JustHealth Technical Documentation*** *This is a comprehensive document using Sphinx Documentation, it provides information on the JustHealth platform architecture, security, database, and API and HTML files.* *The documentation is automatically generated for consistency purposes, and all source code is linked in with the comments for ease of use.*

Table of Contents	(X)	Navigation pane on the left hand side of the documentation
Page numbering	( )	N/A
Spelling/Grammar	(X)	
References	( )	N/A
Appendices	( )	N/A

Code

Comments	(X)	All documentation is produced by .rst, .py and .html files, whilst some of these are automatically generated. The files that we've produced are up to the coding standards outlined in the Quality Standards document. We've also made sure that the source code for the API, views and HTML pages are to the coding standards.
